Experience

Asynq   ■ August 2023 - Present

Frontend Web Developer Intern

At Asynq, my day-to-day responsibilities included (but were not limited to):

- Maintaining and developing various pages for their provided services
- Making their landing and other pages mobile responsive
- Redesigning / tweaking pages when needed
- Improving a lot of performance issues with their GSAP and Framer Motion Integrations
- Creating fluid and performant animations
- Setting up a blog portal / CMS using static markdown files
- … and more

Featured Works

Awaken OS

React   Next.js   Tailwind CSS   REST API   Github Actions (CI/CD)

I co-lead as one of the front-end developers for the awakenOS website project—a custom Android ROM. On top of that, I also setup their slick CI/CD pipeline, ensuring automatic updates on Telegram and seamless website refreshes.
